

JULIAN JOHNSON

VULNERABILITY MANAGEMENT
& SECURITY OPERATIONS

julian.johnson.10@outlook.com (564) 235-9530 Olympia, WA

EDUCATION

B.S. Software Development
Western Governor's University
Oct. 2022

A.A.S. Information Systems Technology
Community College of the Air Force
Oct. 2018

CERTIFICATIONS

CompTIA Security+
CompTIA A+
CompTIA Project+
GCED
GWAPT

CORE SKILLS

Vulnerability management
Penetration testing
PCI DSS compliance
Scanning and patching
Windows and Linux
Active Directory

TOOLS

Python and PowerShell
Wiz, Qualys, Nucleus
McAfee / Trellix
PowerBI

INTERESTS

Family, guitar, programming, CTFs

OVERVIEW

Information security professional experienced in vulnerability management, PCI DSS compliance, penetration testing, and security operations. Combines systems administration and scripting to support risk prioritization, remediation, audit readiness, and resilient infrastructure.

WORK EXPERIENCE

Vulnerability Analyst III

InComm Payments | Remote | Aug. 2021 - Present

- Led vulnerability management across merchant environments, supporting 9 successful PCI DSS audits (FY21-FY23) and producing audit-ready evidence.
- Serve as Security Sign-Off authority for PCI DSS Significant Change reviews; validate production controls and test CDE segmentation.
- Build penetration testing infrastructure, support third-party testing, and coordinate remediation of findings against SLAs.
- Connect vulnerability sources using Python and PowerBI for reporting, risk prioritization, and patching; communicate emerging threats and zero-days.

InfoSec Analyst I

Cincinnati Bell Technology Solutions | Remote | Sep. 2020 - Aug. 2021

- Built ePolicy Orchestrator servers for disaster recovery and testing; analyzed exploitation logs and created HIPS and DLP signatures.

United States Air Force

Jan. 2014 - Sep. 2020 | Joint Base Pearl Harbor-Hickam / Guam

Supervisor, Weapons and Tactics (Jan. 2018 - Sep. 2020)
Earlier roles: Endpoint Protection Specialist (Jul. 2016 - Jan. 2018); Vulnerability Management Technician (Oct. 2015 - Jul. 2016); Systems Administrator (Mar. 2014 - Oct. 2015).

- Led SOC operations and launched Cyber Defense Playbooks covering adversarial and friendly TTPs; trained technicians and earned recognition from 24th Air Force Command.
- Managed McAfee (Trellix) ePolicy Orchestrator architecture, HIPS signatures, DLP rules, and software controls; performed internal and external penetration testing.
- Automated scanning, patching, and Active Directory tasks, achieving 95% inspection compliance. Maintained uptime through a 48-hour HVAC/UPS outage and prevented typhoon-related datacenter downtime.
